I. BUSINESS (Board Action Required)

A. APPROVAL OF MINUTES

For: KIA Regular Board Meeting of July 2, 2015

Mayor David Cartmell moved to approve the minutes of the July 2, 2015, regular board meeting. Mr. Ron Lovan seconded, and the motion carried unanimously.

B. NEW PROJECTS/ACTION ITEMS

1. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR A FEDERALLY ASSISTED CLEAN WATER REVOLVING FUND A LOAN (A15-010) IN THE AMOUNT OF \$1,275,000 TO THE CITY OF BRODHEAD, ROCKCASTLE COUNTY, KENTUCKY

Mr. Jory Becker, DOW, and Mr. Jeff Abshire, KIA, discussed the City of Brodhead's project. The City of Brodhead requested a Fund "A" loan in the amount of \$1,275,000 for the Sewer Rehabilitation Project. This project will include sanitary sewer evaluation and rehabilitation including investigation field services, manhole and line repair of approximately 10,523 linear feet of 8 inch gravity sewer lines, and facilities planning.

Ms. Linda Bridwell inquired about the current and proposed 6% increases listed in the Project Schedule. Jeff Abshire stated that was an error; there is not a second 6% increase. There is a 1% increase in 2018 and the 6% is split between 2015 and 2016.

Mr. Mike Jacobs, GRW Engineers, addressed the group to mention the initial project description included two projects, one rehabilitation project and an equalization basin. That has been revised and the funds are to be used only for the rehabilitation project.

Ms. Linda Bridwell moved to approve Fund A loan (A15-010) in the amount of \$1,275,000 to the City of Brodhead with the standard conditions. Ms. Lona Brewer seconded and the motion was unanimously approve.

2. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR A FEDERALLY ASSISTED CLEAN WATER REVOLVING FUND A LOAN (A15-096) IN THE AMOUNT OF \$1,000,000 TO THE CITY OF HAZARD, PERRY COUNTY, KENTUCKY

Mr. Jory Becker, DOW, and Mr. Jeff Abshire, KIA, discussed the City of Hazard's request for a Fund "A" loan in the amount of \$1,000,000 for the Sanitary Trunk Rehabilitation Project. The project consists of four elements: Sewer Trunk Line - Portions of the principal sanitary sewer trunk line that serve the majority of residential, commercial and industrial customers are corroding and have a history of bypasses and overflows during minor rain events. Moderate to heavy rain events lead to disruptive backups into residences and businesses. The City will replace

12,600 linear feet of 30 inch PVC and ductile iron lines in the areas of most concern. Coalfields Industrial Park Force Main – A 12 mile gravity line and force main serves the Industrial park, which has three odor control stations. The major control station is in very poor condition and will be replaced to eliminate foul odors in a major Commercial area of the City. Lift Stations - The project will replace a failing lift station at the Perry County Park and eliminate the station at the CSX rail yard. The Perry County park station will be replaced with an inverted gravity station. Treatment Plant – The 18 year old outdated screening system will be renovated to remain in compliance with Division of Water parameters. The City's wastewater system has about 3,600 customers and also treats wastewater for the Perry County Sanitation District #1, which has 563 customers.

A special condition has been placed on the City of Hazard. The City shall increase utility rates sufficient to generate an additional \$195,000 in cash flow effective no later than January 1, 2016.

Mr. Ron Lovan asked representatives if they have issues with lack of flow. They confirmed the water becomes septic due to topographical issues as well as two of the industries in the Industrial Park have closed.

Mr. Ron Lovan moved to approve Fund A loan (A15-96) in the amount of \$1,000,000 to the City of Hazard with the standard conditions along with one special condition. Mayor David Cartmell seconded and the motion was unanimously approve.

3. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR AN INFRASTRUCTURE REVOLVING FUND B LOAN (B16-002) OF \$309,000 TO THE CITY OF JEFFERSONVILLE, MONTGOMERY COUNTY, KENTUCKY

Mr. Jeff Abshire, KIA, discussed the City of Jeffersonville's request for a \$309,000 Fund "B" loan for the Radio Read Meter Installation Project. The project will replace 1,727 traditional meters with new brass radio read meters. The new meters are compatible with current system software and will allow increased system accuracy. The project will utilize Utility employees to install the meters over a two month period. The City purchases approximately 93 million gallons (MG) of water annually from Cave Run Water Commission and approximately 8 million gallons (MG) of water from Mount Sterling Water and Sewer System.

Ms. Sandy Williams moved to approve Fund B loan (B16-002) in the amount of \$309,000 to the City of Jeffersonville with the standard conditions. Ms. Linda Bridwell seconded and the motion was unanimously approve.

4. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR AN INFRASTRUCTURE REVOLVING FUND B LOAN (B16-003) OF \$323,313 TO THE CITY OF PINEVILLE FOR THE BENEFIT OF PINEVILLE UTILITY COMMISSION, BELL COUNTY, KENTUCKY

Mr. Jeff Abshire, KIA, discussed the City of Pineville's for the benefit of the Pineville Utility Commission request for a Fund "B" loan in the amount of \$323,313 for the Wastewater Treatment Plant Lagoon Failure Project. This project will provide emergency replacement of a 36 inch storm drain that collapsed under the Plant's biological lagoon. The repairs will include removal of the existing drain, sludge removal, a new survey and geotechnical analysis and all design and construction work needed to install the new drain.

The utility provides sewer service to the City of Pineville and water service to the City of Pineville, Black Mountain Utility District (Green Hills), Cawood Utility District, and Knox County Utility Commission.

Mr. Ron Lovan asked for further explanation on the situation. Representatives explained that the earth collapsed and tore the lining in several different places, within 15 minutes, 1.2 million gallons (MG) of raw sewage was released into the Cumberland River. An insurance claim was filed and denied. The City has filed an appeal, but it does not look favorable at this point in time.

Mr. Ron Lovan moved to approve Fund B loan (B16-003) in the amount of \$323,313 to the City of Pineville for the Benefit of Pineville Utility Commission with the standard conditions. Ms. Linda Bridwell seconded and the motion was unanimously approve.

5. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR A FEDERALLY ASSISTED DRINKING WATER REVOLVING FUND F LOAN (F15-036) IN THE AMOUNT OF \$265,000 TO THE CITY OF CRAB ORCHARD, LINCOLN COUNTY, KENTUCKY

Mr. Jory Becker, DOW, and Mr. Jeff Abshire, KIA, discussed the City of Crab Orchard's request for a Fund "F" loan in the amount of \$265,000 for the Radio Read Conversion Project. This project will install 550 new radio read meters with half of the existing meters receiving a new setter and meter box. A vehicle base station and software for the City office will also be installed as well as replacement of an outdated meter and check valve at the base of the tank.

The City services both Garrard and Lincoln counties and purchases approximately 32 million gallons (MG) of water annually Lancaster Water Works.

Mr. Marty Ivy moved to approve the Fund F loan (F15-036) in the amount of \$265,000 to the City of Crab Orchard with the standard conditions. Mr. Paul Lashbrooke seconded and the motion was unanimously approve.

6. A RESOLUTION OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING AND APPROVING THE ISSUANCE OF OBLIGATIONS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY TO REIMBURSE CAPITAL EXPENDITURES MADE BY GOVERNMENTAL AGENCIES PURSUANT TO LOANS MADE BY THE KENTUCKY INFRASTRUCTURE AUTHORITY TO SUCH GOVERNMENTAL AGENCIES

This is a routine resolution allowing KIA to reimburse expenses that are paid out of the Authority's funds with bond proceeds. The projects listed below are covered under this resolution:

APPLICANT	FUND	AMOUNT
City of Brodhead	A15-010	\$1,275,000
City of Hazard	A15-096	\$1,000,000
City of Jeffersonville	B16-002	\$ 309,000
City of Pineville f/b/o Pineville Utility Commissioner	B16-003	\$ 323,313
City of Crab Orchard	F15-036	\$ 265,000

Ms. Linda Bridwell moved to approve the resolution. Mr. Ron Lovan seconded and the motion carried unanimously.

II. EXECUTIVE DIRECTOR'S REPORT

Kentucky Infrastructure Authority Executive Director John Covington discussed Brandi Norton's absence. Brandi's little girl, Liberty arrived weighing in at 5 pounds, 9 ounces. Jeff Abshire stepped in to present today's projects.

Clean water SRF Update - 32 borrowers accepted Intended Use Plan (IUP) invitations; there is a balance of almost \$47 million available. The second round of invitations went out. Everyone on the priority list has been invited.

Drinking water SRF Update - there is not as much money available; there are 15 projects that have been accepted. We have more funds available with loan payments coming in better than expected. KIA staff will monitor the situation closely to see if there are funds for additional projects. Generally, a cushion is available for projects that may come in over budget.

KIA was invited to testify at the July Appropriations and Revenue Committee. Staff did a presentation on KIA funding and projects. It was well received by the group.

Mr. Ron Lovan asked Executive Director Covington if he had any information on the Water Infrastructure Finance Innovation Authority (WIFIA). Mr. Covington stated he doubts funding will be available. He discussed the issue with John Hicks in the State Budget Director's office, inquiring if funds can be used, if available, without legislative action.

III. STATUS REPORT FOR FUNDS A, A2, B, B1, C, F, F2

I. PROJECT DESCRIPTION

The Harrison County Sanitation District is requesting a Fund "A" loan in the amount of \$1,567,885 for the Northside Sewer Extension and Cedarbrook Replacement Project. This project has two components:

The Northside component will eliminate two existing package treatment plants (PTP) and will provide sewer service to the Northside Elementary School and the Northside Mobile Home Park. A new collection system consisting of 2,800 LF of 8-inch gravity sewer will also be constructed to replace the existing system at the Northside Mobile Home Park. All flows will be pumped south along US 27 to Cynthiana for treatment through approximately 16,000 LF of 3 and 4-inch force main.

The Cedarbrook component will consist of replacing the existing collection and treatment system at the Cedarbrook Subdivision located along US 27 south of Cynthiana near the Harrison/Bourbon border. Approximately 3,600 LF of gravity sewer will be replaced and a new 25,000 gallon per day PTP will be installed to serve the existing subdivision customers.

Rates will not be established for the regional entity until after a rate study is performed and cost base rates are established for the District.

VII. DEMOGRAPHICS

Year	Population		County	% Change	County Unemployment	
	City	% Change			Date	Rate
1980	5,881		15,166		June 2004	6.2%
1990	6,497	10.5%	16,248	7.1%	June 2009	11.9%

Based on current Census data from the American Community Survey 5-Year Estimate 2009-2013, the District's population was 212 with a Median Household Income (MHI) of \$32,362. The median household income for the Commonwealth is \$43,036. The project will qualify for a 0.75% interest rate because the District's MHI is less than 80% of the State's MHI.

VIII. 2013 CAPITALIZATION GRANT EQUIVALENCIES

- 1) Green Project Reserve - This project does not qualify for Green Project Reserve (GPR) funding.
- 2) Additional Subsidization – This project qualifies for additional subsidization in the amount of \$449,563.

IX. FINANCIAL ANALYSIS (See Exhibit 1)

The wastewater utility assets will not be transferred to the District until the District takes ownership of the properties. The financial statements presented are those based on estimates for the area using a combination of existing data and projections.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues will remain flat for growth.
- 2) The District will take ownership of the Cedarbrook Package Treatment Plant.
- 3) Expenses will increase 2% annually.
- 4) Treated water expenses will increase 1% annually.

Based on the proforma assumptions, the utility shows adequate cash flow to repay the KIA Fund A loan.

REPLACEMENT RESERVE

The annual replacement cost is \$3,900. This amount should be added to the replacement account each December 1 until the balance reaches \$39,000 and maintained for the life of the loan.

XIII. RECOMMENDATIONS

KIA staff recommends approval of the loan with the standard conditions and the following special conditions:

- 1) The District will take ownership of the Cedarbrook Subdivision package treatment plant.
- 2) The District will enter into an agreement with the Harrison County Water Association to disconnect service to nonpaying customers.
- 3) The District will conduct a rate analysis to determine and establish cost base rates for all customers.
 - a. If the cost base rates are too high for the consumers for the District to meet loan conditions and loan terms, then KIA will decrease the loan amount to an amount the District can meet the loan conditions and loans terms.

WHEREAS, the Kentucky Infrastructure Authority (the "Authority") has been duly created as a body corporate and politic constituting a public corporation and a governmental agency of the Commonwealth of Kentucky pursuant to Chapter 224A of the Kentucky Revised Statutes (the "Act"); and

WHEREAS, pursuant to the Act, the Authority is duly and legally authorized to make loans to Governmental Agencies for the purpose of providing funds for the construction and acquisition of sanitary sewer facilities, water facilities or other types of infrastructure, and in that regard, to enter into Assistance Agreements with such Governmental Agencies governing the provisions in respect of which such loans are to be made, the amounts thereof and the repayment provisions in respect thereto; and

WHEREAS, the Authority anticipates entering into an Assistance Agreement for a loan from the Authority's Federally Assisted Clean Water Revolving Loan Program (Fund A) with the City of Elkhorn City, subject to final determination of amount when the factors involving such financing have been determined; and

WHEREAS, the Authority will, in the near future, authorize and issue a series of its Infrastructure Authority Revenue Bonds for the purpose of funding loans to various governmental agencies, such series of Bonds to be known as Kentucky Infrastructure Authority Revenue Bonds with the appropriate Series designation; and

WHEREAS, the Authority wishes to establish terms and conditions on said Fund A loans prior to the issuance of Authority Revenue Bonds and recognizes that additional planning and design of the financed projects are required.

NOW, THEREFORE, THE KENTUCKY INFRASTRUCTURE AUTHORITY, ACTING BY AND THROUGH ITS BOARD OF DIRECTORS AS ITS DULY AUTHORIZED AND EMPOWERED GOVERNING BODY, DOES HEREBY RESOLVE AND ORDER, AS FOLLOWS:

Section 1. All statements of fact set forth in the preambles to this Resolution and Order are incorporated herein by reference, the same as if set forth verbatim. All such statements of fact are hereby declared to be true and accurate in all material respects.

Section 2. The Authority hereby authorizes the issuance of a conditional Federally Assisted Clean Water Revolving Fund loan for \$1,000,000 of project expense including capitalized interest for the construction period, to the City of Elkhorn City for the

Wastewater Treatment Plant project. Such amounts are subject to adjustment by further action of the Authority or may be adjusted by action of the Authority staff at the time of the issuance of bonds based on adjustment in project costs of not more than (10%) ten percent of the project cost authorized by this resolution. Upon satisfaction of all conditions of the commitment, execution of an assistance agreement for this loan is authorized.

Section 3. Principal forgiveness of 25% will be deducted from the approved loan amount. The unforgiven principal balance of \$750,000 shall be repaid.

Section 4. The unforgiven principal shall be repayable over 30 years at an interest rate of 0.75%. In addition to debt service, a 0.2% annual administration fee on the unpaid, unforgiven principal balance will be charged. From annual revenues, \$2,500 must be set aside in a borrower held replacement reserve each December 1 until the balance reaches \$25,000 and maintained for the life of the loan. These terms are subject to adjustment upon execution of the loan agreement, upon changes in the project conditions or determination that the project will require authority financing to be done on a taxable basis.

Section 5. This Resolution and Order shall be in full force and effect from and after its adoption at a properly held meeting of the Kentucky Infrastructure Authority this 3rd day of September, 2015.

I. PROJECT DESCRIPTION

The City of Elkhorn City is requesting a \$1,000,000 Fund "A" loan for their Wastewater Treatment Plant Project. This project will replace their 150,000 gallon a day plant with a 385,000 Sequencing Batch Reactor (SBR) plant. The city will use existing buildings and equipment at the site in order to reduce the overall cost of the project. Also, this loan will restructure the City's existing KIA loan in the amount of \$440,000 that is scheduled to mature in 2019. The City has been making monthly payments towards the KIA loan, however, they have not been able to meet the annual debt service payments and have fallen increasingly behind. The City is under consent decree with the Environmental Protection Agency.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2009-2013, the Utility's service area population was 1,050 with a Median Household Income (MHI) of \$26,813. The median household income for the Commonwealth is \$43,036. The project will qualify for a 0.75% interest rate since the City's MHI is 80% below the State's MHI.

- 1) Green Project Reserve - This project does not qualify for Green Project Reserve (GPR) funding.
- 2) Additional Subsidization – This project qualifies for additional subsidization in the amount of \$250,000.

IX. FINANCIAL ANALYSIS (See Exhibit 1)

Financial information was obtained from the audited financial statements for the years ended June 30, 2012 through 2014. The sewer utility is a component unit of the City. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Revenues increased 4% from \$172,311 to \$178,993 while operating expenses increased 11% from \$140,584 to \$158,587. The debt coverage ratio was 2.9, 2.2, and 1.0 for years 2012, 2013 and 2014, respectively.

The balance sheet reflects a current ratio of 0.4, a debt to equity ratio of 0.6 and the number of months of operating expenses in unrestricted cash is 0.8.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues remain flat for growth.
- 2) Additional revenues of approximately \$8,000 (4%), \$21,000 (11%), and \$3,100 (1%) in 2018, 2019 and 2020, respectively, will be required to fund debt service on the proposed project.
- 3) Expenses will increase 2%.
- 4) Debt service coverage is 1.0 in 2018 when principal and interest repayments begin.

Based on the proforma assumptions, the utility shows adequate cash flow to repay the KIA Fund A loan.

REPLACEMENT RESERVE

The annual replacement cost is \$2,500. This amount should be added to the replacement account each December 1 until the balance reaches \$25,000 and maintained for the life of the loan.

I. PROJECT DESCRIPTION

The City of Lebanon Junction is requesting an increase of \$100,000 to an existing \$200,000 Fund "B" loan for the Truck Stop Lift Station Replacement project. The increase will replace the existing effluent line that came apart in four places during flood conditions. The original project description is below:

The project will install a new lift station to replace one that has been corroded from sewer gases and has compromised structural integrity. The new wet well will also be sized to accommodate future flow. A failure would affect the largest sewer user, which is approximately 6% of revenues.

The City of Lebanon Junction provides water services to 933 households within Bullitt and Nelson Counties. Finished water is purchased from Louisville Water Company to directly service a population of 2,191 residents at an annual volume of 83.35 million gallons (MG).

VIII. FINANCIAL ANALYSIS (See Exhibit 1)

Financial information was obtained from the City's audited financial statements for the Water and Sewer Fund for the years ended June 30, 2012 through 2014. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Water and Sewer service revenues increased 7% from \$482,456 in 2012 to \$521,213 in 2014 while total revenues decreased 3% from \$890,892 to \$868,289. Purchased water cost increased 15% from \$183,814 to \$216,912, primarily due to the service revenue increase, while operating expenses increased 6% from \$469,701 to \$500,528 during the same period. The debt coverage ratio in 2012, 2013 and 2014, respectively was 1.6, 1.2 and 1.1, respectively.

The balance sheet reflects a current ratio of 0.7 a debt to equity ratio of 0.4 and the number of months of operating expenses in unrestricted cash is 1.1.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues will increase 1% annually for volume.
- 2) Any increase in purchased water unit cost will be passed on to the consumer within 30 days of the increase.
- 3) Expenses will increase 2% for inflation.
- 4) Debt service coverage is 1.3 in 2015 when principal and interest repayments begin.

Based on the proforma assumptions, the utility shows adequate cash flow to repay the KIA Fund B loan.

REPLACEMENT RESERVE

The annual replacement cost is \$800. This amount should be added to the replacement account each December 1 until the balance reaches \$8,000 and maintained for the life of the loan.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2009-2013, the Utility's service area population was 759 with a Median Household Income (MHI) of \$22,235. The median household income for the Commonwealth is \$43,036. The project will qualify for a 0.75% interest rate because the City's MHI is

below 80% of the State's MHI.

VIII. FINANCIAL ANALYSIS (See Exhibit 1)

Financial information was obtained from the audited financial statements for the years ended June 30, 2013 through 2014. Amounts for 2015 are estimated. The audited financial statements combine the water and sewer utilities. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Revenue increased 10.5% from \$334,333 in 2013 to \$373,546 in 2015 due to a substantial rate increase. Operating expenses remained flat for the same time period. The City's utilities were substantially underfunded from 2013 to 2015 in the amounts of \$143,318, \$126,450 and \$48,807, respectively, prior to the rate increase. Debt coverage ratio was (0.9), (1.4), and (0.2) during the same period. Balance sheet current ratio is 1.2, debt to equity is 0.6, and days of sales in accounts receivable is 51.1.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues will increase approximately 35% in 2015 and 35% in 2016 for rate increases and 2% each year thereafter for inflation.
- 2) Expenses will increase 3% annually.
- 3) Debt service coverage is 1.2 in 2017 when principal and interest repayments begin.

Based on the proforma assumptions, the utility shows adequate cash flow to repay the KIA Fund B loan.

REPLACEMENT RESERVE

The annual replacement cost is \$700. This amount should be added to the replacement account each December 1 until the balance reaches \$7,000 and maintained for the life

of the loan.

WHEREAS, the Authority will, in the near future, authorize and issue a series of its Infrastructure Authority Revenue Bonds for the purpose of funding loans to various governmental agencies, such series of Bonds to be known as Kentucky Infrastructure Authority Revenue Bonds with the appropriate Series designation; and

WHEREAS, the Authority wishes to establish terms and conditions on said Fund F loans prior to the issuance of Authority Revenue Bonds and recognizes that additional planning and design of the financed projects are required.

NOW, THEREFORE, THE KENTUCKY INFRASTRUCTURE AUTHORITY, ACTING BY AND THROUGH ITS BOARD OF DIRECTORS AS ITS DULY AUTHORIZED AND EMPOWERED GOVERNING BODY, DOES HEREBY RESOLVE AND ORDER, AS FOLLOWS:

Section 1. All statements of fact set forth in the preambles to this Resolution and

Order are incorporated herein by reference, the same as if set forth verbatim. All such statements of fact are hereby declared to be true and accurate in all material respects.

Section 2. The Authority hereby authorizes the Amendment of a conditional Federally Assisted Drinking Water Revolving Fund loan increasing the amount to \$6,249,165 of project expense including capitalized interest for the construction period, to the City of Williamstown for Phase II of the Water Systems Improvements project. Such amounts are subject to adjustment by further action of the Authority or may be adjusted by action of the Authority staff at the time of the issuance of bonds based on adjustment in project costs of not more than (10%) ten percent of the project cost authorized by this resolution. Upon satisfaction of all conditions of the commitment, execution of an assistance agreement for this loan is authorized.

Section 3. Principal forgiveness of 6% will be deducted from the approved loan amount. The unforgiven principal balance of \$5,849,165 shall be repaid.

Section 4. The unforgiven principal shall be repayable over 20 years at an interest rate of 1.75%. In addition to debt service, a 0.25% annual administration fee on the unpaid, unforgiven balance will be charged. From annual revenues, \$15,600 must be set aside in a borrower held replacement reserve each December 1 until the balance reaches \$156,000 and maintained for the life of the loan. These terms are subject to adjustment upon execution of the loan agreement, upon changes in the project conditions or determination that the project will require authority financing to be done on a taxable basis.

Section 4. This Resolution and Order shall be in full force and effect from and after its adoption at a properly held meeting of the Kentucky Infrastructure Authority this 3rd day of September, 2015.

**KENTUCKY INFRASTRUCTURE AUTHORITY
DRINKING WATER STATE REVOLVING FUND (FUND "F")
CITY OF WILLIAMSTOWN, GRANT COUNTY
PROJECT REVIEW
WX21081001**

I. PROJECT DESCRIPTION

The City of Williamstown is requesting a Fund "F" loan increase in the amount of \$2,249,165 for Phase II (b) of the two-phase Water Systems Improvements project. Phase I for \$2,000,000 was funded by KIA on June 19, 2013. The project presented in May 2014 anticipated a \$2,000,000 bond finance and \$1,750,000 of EDA Grant. The project has since been adjusted to remove the bond funding and \$250,000 of EDA Grant and replaced with additional KIA Funding. The City is in the process of obtaining funding commitments for the entire project. The estimated total project cost is \$17.25 million. Separation of the project into two phases permitted the City to access KIA funding for Phase I without waiting to obtain financial commitments for the entire project. While Phase I is not dependent upon completion of Phase II for its success, the combined project is presented throughout the credit analysis.

The entire project addresses capacity and water quality needs by construction of a new 4.0 million gallon per day (MGD) water treatment plant (WTP), improvements to the raw water intake and pumping station, and a new 14-inch raw water main. The WTP components will include, chemical storage and feed facilities, high rate clarification using dissolved air flotation (DAF), mixed media filtration, process enhancements using granular activated carbon (GAC) post-filter contactors for trace organic compound reduction as well as taste and odor reduction, clearwell storage for finished water and high service and backwash pumping facilities. The process enhancements will allow the City to comply with Stage 2 of the Disinfection By-Products Rule. Also, the current treatment process is unable to successfully eliminate methylisoborneol (MIB) and geosmin which contribute to periodic taste and odor issues that result from the seasonal turnover of Lake Williamstown.

The **first phase** (approved June 19, 2013) includes planning and design for the entire project along with construction of two new sludge lagoons. The lagoons will address immediate needs related to the City's WTP solids handling and dewatering system which was found to be deficient during a July 2012 sanitary inspection by the Kentucky Division of Water (DOW). Subsequently, the DOW issued a Notice of Violation and notified the City that immediate action was required to address the problem. The City currently pumps out the existing holding tank and has the sludge hauled to the landfill. This approach is temporary and very costly. The City is constructing the new lagoons to handle the WTP backwash solids. The most cost effective approach to the problem is to construct two new sludge lagoons at the new WTP site and temporarily pump solids from the existing WTP to these lagoons. When the new WTP is complete, the

backwash solids will then gravity flow to the lagoons.

The ***second phase*** is for construction of the remainder of the project. The existing plant has a capacity of 2.25 MGD and was constructed in 1964 with water being sourced from Lake Williamstown. Production averages 1.4 MGD with peaks of 2.0 MGD.

The City directly serves 1,800 customers and indirectly serves an additional 3,400 customers by providing wholesale water to the City of Dry Ridge, and the Bullock-Pen Water and Corinth Water Districts, both of which are regulated by the Kentucky Public Service Commission. The City is the sole supplier for Dry Ridge and Corinth.

A provision in the City's rate ordinance states "Every two (2) years, the City may increase and add a Cost of Living Adjustment based upon the Consumer Price Index in January." This permits the City to, at its election, recover one year of inflation every other year.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2009-2013, the Utility's service area population was 4,622 with a Median Household Income (MHI) of \$ 47,743. The median household income for the Commonwealth is \$43,036. The project will qualify for a 1.75% interest rate because the City is a regional provider

VIII. 2014 CAPITALIZATION GRANT EQUIVALENCIES

- 1) Green Project Reserve - The Drinking Water capitalization grant does not contain a "green" requirement.
- 2) Additional Subsidization – This project qualifies for additional subsidization in the amount of 10%, or \$200,000 on the additional amount that is being funded. The City also received \$200,000 principal forgiveness on the \$2.0M that was funded in June 2013.

IX. FINANCIAL ANALYSIS (See Exhibit 1)

Financial information was obtained from the audited financial statements for the years ended June 30, 2012 through 2014. Cash flow information is presented for the water system. However, the balance sheet is composed of the entire "Utility Fund" which includes electric, water and cable television systems. The Sewer Fund is reported separately from the Utility Fund and is not a component of this analysis. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Approximately 50% of revenues are derived from sales to the City of Dry Ridge, the Corinth Water District and the Bullock-Pen Water District. Revenues decreased 14% from \$1,541,965 in 2012 to \$1,353,960 in 2014. Operating expenses decreased 5% from \$1,053,187 to \$1,001,966 for the same period. The debt coverage ratio was 1.2, 0.6, and 0.8 in 2012, 2013 and 2014, respectively.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues will increase 0.5% per year for general volume growth and 2% every other year for the prior year's CPI change. This is incremental to the rate increases discussed below.
- 2) Rates will be adjusted by the dollar amounts listed below. The City will need to determine how the increase will be applied to the various rate categories (in City

retail, out of City retail, and wholesale rates).

Effective Date	07/01/2016	07/01/2017
Incremental Revenue	\$145,000	\$208,000
Percent of Water Revenues	8.5%	10.5%

- 3) A commercial project that is expected to begin construction in mid 2014 will contribute about \$100,000 annually to free cash flow beginning in mid 2017. A \$500,000 tap fee for the project is included in the 2016 forecast. The required debt coverage ratio is calculated excluding this fee with the assumption that there will either be corresponding capital costs or the establishment of a depreciation reserve.
- 4) Expenses will increase 2% annually for inflation plus \$50,000 annually beginning in mid 2018 for the cost of periodic replacement or refurbishment of the filter media.
- 5) Debt service coverage is 1.7 in 2018 when principal and interest repayments on all debt components have begun.

Based on the proforma assumptions, the utility shows adequate cash flow to repay the KIA Fund F loan.

REPLACEMENT RESERVE

The annual replacement cost is \$15,600 (based on the entire loan amount.) This amount should be added to the replacement account each December 1 until the balance reaches \$156,000 and maintained for the life of the loan.

WHEREAS, the Kentucky Infrastructure Authority (the "Authority") has been duly created as a body corporate and politic constituting a public corporation and a governmental agency of the Commonwealth of Kentucky pursuant to Chapter 224A of the Kentucky Revised Statutes (the "Act"); and

WHEREAS, pursuant to the Act, the Authority is duly and legally authorized to make loans to Governmental Agencies for the purpose of providing funds for the construction and acquisition of sanitary sewer facilities, water facilities or other types of infrastructure, and in that regard, to enter into Assistance Agreements with such Governmental Agencies governing the provisions in respect of which such loans are to be made, the amounts thereof and the repayment provisions in respect thereto; and

WHEREAS, the Authority anticipates entering into an Assistance Agreement for a loan from the Authority's Federally Assisted Drinking Water Revolving Loan Program (Fund F) with the Bath County Water District, subject to final determination of amount when the factors involving such financing have been determined; and

WHEREAS, the Authority will, in the near future, authorize and issue a series of its Infrastructure Authority Revenue Bonds for the purpose of funding loans to various governmental agencies, such series of Bonds to be known as Kentucky Infrastructure Authority Revenue Bonds with the appropriate Series designation; and

WHEREAS, the Authority wishes to establish terms and conditions on said Fund F loans prior to the issuance of Authority Revenue Bonds and recognizes that additional planning and design of the financed projects are required.

NOW, THEREFORE, THE KENTUCKY INFRASTRUCTURE AUTHORITY, ACTING BY AND THROUGH ITS BOARD OF DIRECTORS AS ITS DULY AUTHORIZED AND EMPOWERED GOVERNING BODY, DOES HEREBY RESOLVE AND ORDER, AS FOLLOWS:

Section 1. All statements of fact set forth in the preambles to this Resolution and Order are incorporated herein by reference, the same as if set forth verbatim. All such statements of fact are hereby declared to be true and accurate in all material respects.

Section 2. The Authority hereby authorizes the issuance of a conditional Federally Assisted Drinking Water Revolving Fund loan for \$925,470 of project expense including capitalized interest for the construction period, to the Bath County Water District for the Scattered Site System Improvements 2015 project. Such amounts are subject to adjustment by further action of the Authority or may be adjusted by action of the Authority

staff at the time of the issuance of bonds based on adjustment in project costs of not more than (10%) ten percent of the project cost authorized by this resolution. Upon satisfaction of all conditions of the commitment, execution of an assistance agreement for this loan is authorized.

Section 3. Principal forgiveness of 25% will be deducted from the approved loan amount. The unforgiven principal balance of \$694,102 shall be repaid.

Section 4. The unforgiven principal shall be repayable over 20 years at an interest rate of 0.75%. In addition to debt service, a 0.25% annual administration fee on the unpaid, unforgiven principal balance will be charged. From annual revenues, \$2,300 must be set aside in a borrower held replacement reserve each December 1 until the balance reaches \$23,000 and maintained for the life of the loan. These terms are subject to adjustment upon execution of the loan agreement, upon changes in the project conditions or determination that the project will require authority financing to be done on a taxable basis.

Section 5. This Resolution and Order shall be in full force and effect from and after its adoption at a properly held meeting of the Kentucky Infrastructure Authority this 3rd day of September, 2015.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2008-2012, the Utility's service area population was 8,944 with a Median Household Income (MHI) of \$31,166. The median household income for the Commonwealth is \$43,036. The project will qualify for a .75% interest rate because the utility's service

area MHI is below 80% of the State's MHI.

VIII. 2014 CAPITALIZATION GRANT EQUIVALENCIES

- 1) Green Project Reserve - The Drinking Water capitalization grant does not contain a "green" requirement.
- 2) Additional Subsidization – This project does qualify for additional subsidization in the amount of \$231,368.

IX. FINANCIAL ANALYSIS (See Exhibit 1)

Financial information was obtained from the audited financial statements for the years ended June 30, 2012 through 2014. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Revenues increased 14% from \$1,722,771 in 2012 to \$1,951,805 in 2014. Operating expenses increased 9% from \$687,334 to \$754,920. The debt coverage ratio was 3.5, 3.9 and 3.1 for 2012, 2013, and 2014, respectively.

The balance sheet reflects a current ratio of 7.2, a debt to equity ratio of 0.3 and the number of months of operating expenses in unrestricted cash is 12.8.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues will be flat.
- 2) Expenses will increase 2% for inflation.
- 3) Debt coverage ratio will be 2.1 in 2017 when full principal and interest payments begin.

Based on the proforma assumptions, the utility shows adequate cash flow to repay the KIA Fund F loan.

REPLACEMENT RESERVE

The annual replacement cost is \$2,300. This amount should be added to the replacement account each December 1 until the balance reaches \$23,000 and maintained for the life of the loan.

AUTHORITY TO SUCH GOVERNMENTAL AGENCIES**

WHEREAS, the Board of Directors of the Kentucky Infrastructure Authority (the "Authority") has heretofore approved the undertaking of the projects described in further detail in Exhibit A (collectively, the "Project"); and

WHEREAS, the Authority anticipates making loans to governmental agencies pursuant to the provisions of Chapter 224A of the Kentucky Revised Statutes (the "Act") for the Project and the governmental agencies may be expected to pay and/or incur costs with respect to the Project ("Prior Capital Expenditures") on or after the date of this resolution and prior to the issuance of the obligations (the "Obligations") which will finance the Project.

NOW, THEREFORE BE IT RESOLVED by the Board of Directors of the Kentucky Infrastructure Authority as follows:

Section 1. The Board of Directors hereby approves the use of the Obligations to finance the costs of the Project in the maximum principal amount set forth in Exhibit A plus costs of issuance related thereto and amounts required to fund a debt service reserve, if any, and declares its intent that any Prior Capital Expenditures made by the governmental agencies pursuant to loans made by the Authority will be made in anticipation of the issuance of such Obligations to reimburse said Prior Capital Expenditures. This declaration is made pursuant to Treas. Reg. §1.150-2.

The Authority hereby directs the Executive Director, Secretary, and Treasurer to take the following action at the time the Prior Capital Expenditures are reimbursed from proceeds of the Obligations: (i) evidence the reimbursement on the books and records maintained with respect to the Obligations, and (ii) identify either the actual prior expenditure to be reimbursed or, in the case of reimbursement of a fund or account, the fund or account from which the expenditure was paid.

Section 5. The books, records and proceedings of the Authority with respect to this resolution shall be made reasonably available by the Authority for its inspection by the general public at the Authority's administrative office every business day during normal business hours commencing no later than 30 days after the passage of this resolution.
