| minimum, must do   | cument the types of records rand plumbing codes, water syste | ing and updating service line data: at a reviewed (previous materials evaluation, em records, distribution system inspections |

- o procedures to collect data during routine maintenance and operations,
- o describe customer engagement efforts,
- o procedure for identifying customer-owned service line material
- o procedure for digitizing records or organizing record information in an electronic format
- o when relevant: alternative procedure developed in consultation with DOW

☑ Provide documentation that above procedures are in effect: Use Methodology, Summary, and Public Accessibility pages of the DOW Service Line Inventory template, as well as any additional documentation needed (e.g., examples of work orders, customer flyers, etc.)

By signing this form, I am verifying that this information is true and accurate. I understand that no priority points will be allotted for asset management and/or service line inventory development unless this document is signed by a utility representative. Furthermore, I understand that the falsification of this form could result in the above referenced project receiving no priority points towards asset management planning and/or service line inventory project readiness, which may impact the overall prioritization of the proposed project. This information must be made available for inspection upon request by Division of Water personnel.
